HY-TECH DRILLING

BOX 3248, 2715 TATLOW RD SMITHERS B.C. V0J 2N0
TEL: 250.847.9301 FAX: 250.847.5111 HY-TECHDRILLING.COM

# HY-TECH DRILLING IS LOOKING FOR A FULL TIME PERMANENT FIELD SAFETY COORDINATOR TO JOIN OUR TEAM.

## THE JOB

This role is ideal for experienced field personnel looking to transition off the tools while remaining closely connected to field operations.

This role involves working with the Foreman or Project Manager to oversee compliance with safety systems and environmental regulations while providing support, guidance, and professional representation. Responsibilities include:

- Plan and conduct site visits by developing trip plans, setting clear objectives, and completing post-visit reports for management.
- Work closely with Foremen to support compliance with safety systems and regulations, and promote proactive safety practices.
- Support and participate in site safety meetings, new worker orientations, and site-specific safety requirements.
- Assist with the completion, review, and effective use of Job Hazard Analyses (JHAs), including training and coaching for employees and supervisors.
- Review Hazard Identifications, incidents, and near misses; lead or support investigations, identify root causes, and recommend corrective actions to prevent recurrence.
- Monitor legislative, industry, and internal changes to anticipate and address emerging safety needs.
- Assist with Emergency Response Plan (ERP) development, reviews, updates, training, and annual testing to ensure site readiness.
- Review safety meeting submissions from operations and the shop, identify trends or gaps, and provide recommendations to the Health & Safety Manager.
- Deliver on-site safety training as required (e.g., Propane, Defensive Driving, Rod Handler, Lockout/Tagout).
- Conduct regular site audits to verify crews and Foremen are following company procedures and working safely and efficiently.

## THE PERKS

- Competitive wage based on experience and qualifications ($500-$600 per day).
- Eligible for an annual performance bonus based on company performance.
- Career growth, development, and continuous learning opportunities.

## THE SETTING

This is a field-based position working within Canada with the potential to work on our USA job sites.

## THE SCHEDULE

Rotational schedule, dependent on job location (4/2, 3/3, or 2/2).

## EXPERIENCE & QUALIFICATIONS

- Solid understanding of safe work practices, hazard recognition, and crew-based job execution gained through field experience.
- Formal safety training, diploma, or designation is considered an asset but not required — training and support will be provided for the right candidate.
- Working knowledge (or willingness to learn) Occupational Health & Safety and environmental requirements applicable to drilling operations across multiple jurisdictions.
- Maintain high-quality standards and be a positive ambassador for Hy-Tech.
- Work independently and as part of a team, developing strong relationships.
- Must have a valid driver's licence and provide a current drivers abstract annually.
